MAP DISCLAIMER AND SPECIFICATIONS

Map Disclaimer

All geospatial data provided in the interactive mapping system are general representations, which are subject to revisions. The geospatial boundaries and locations are not to be used for establishing legal descriptions. For confirmation of details related to the geospatial data, please contact the appropriate department or constitutional office.

Specifications

Recommended viewing specifications requirements:

- ✓ High Speed Internet Connection
- ✓ Google Chrome or Internet Explorer Browser

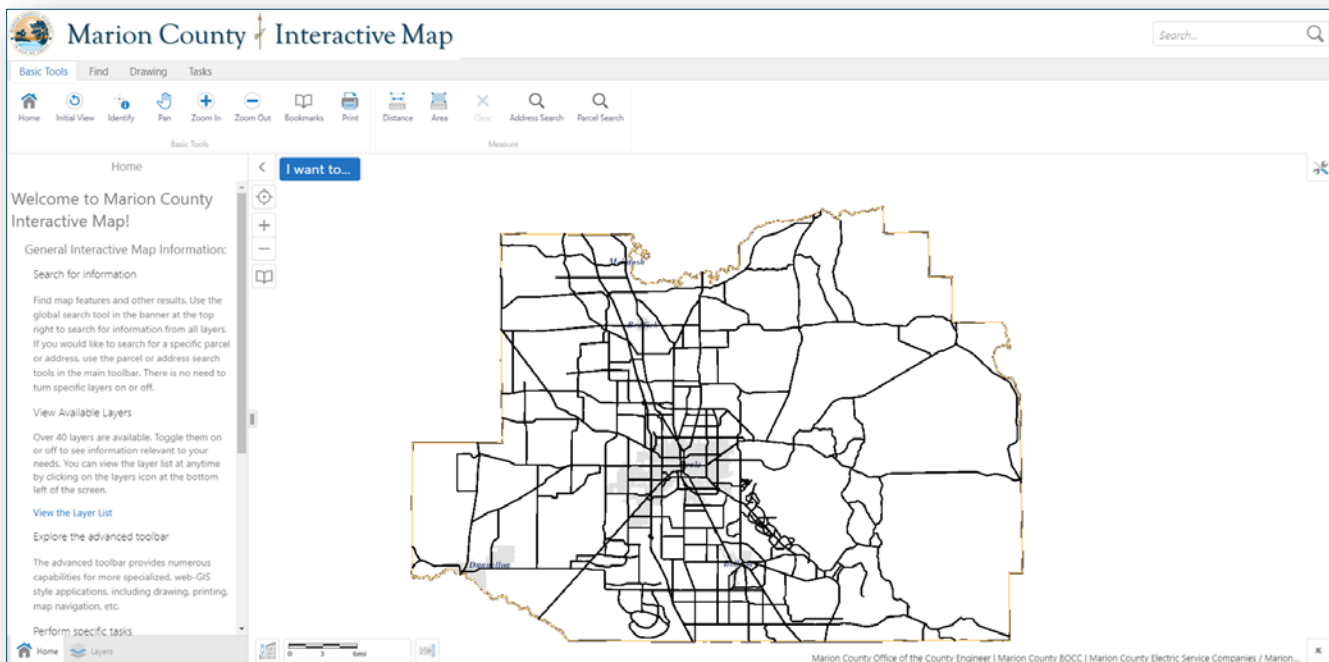

STEP #1

Navigating to the Marion County Online Interactive Mapping Website

To access the Marion County Online Interactive Mapping Website, click on the link below:

<https://maps.marioncountyfl.org/interactivemap/>

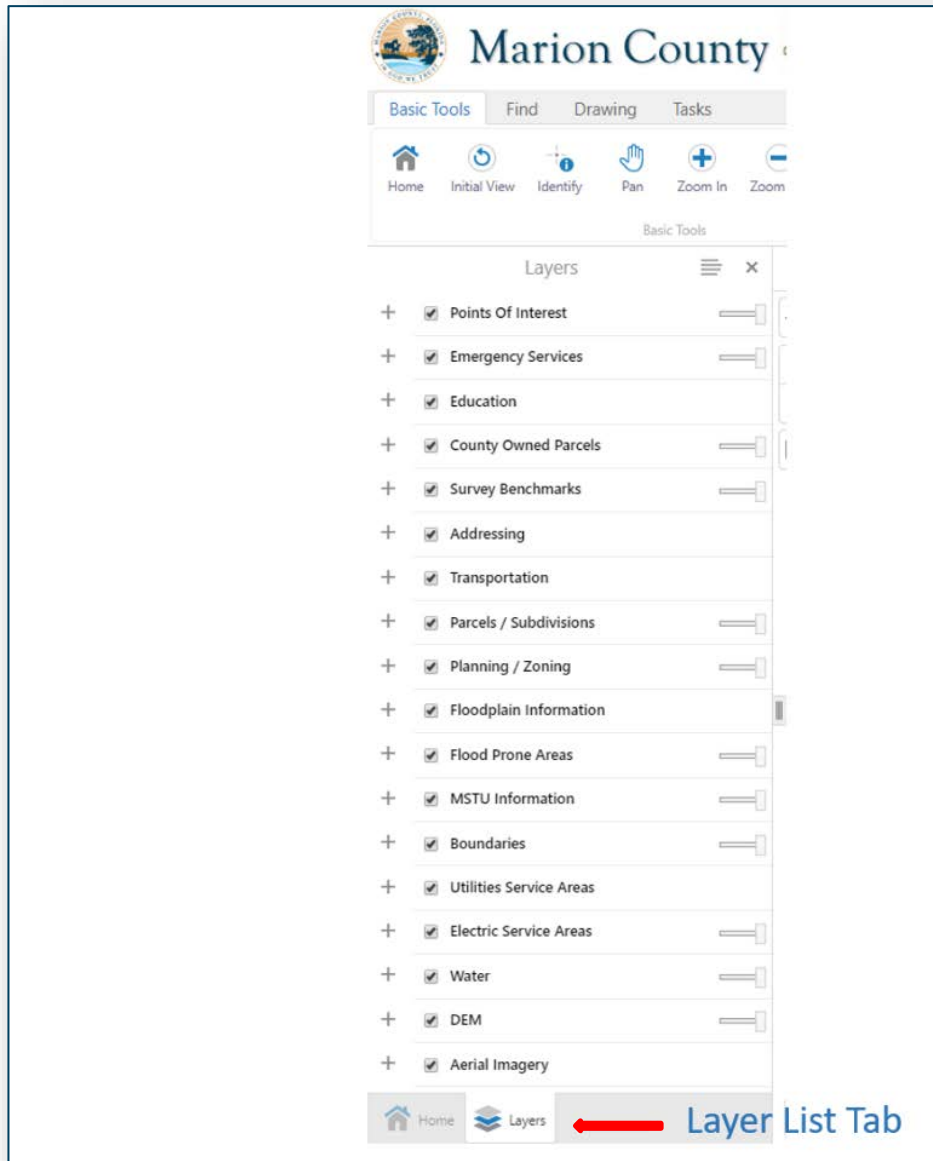

This link should bring you to a website page that looks like this:

STEP #2

Activate the Layer List

In the lower left-hand corner of the website window, there is a “Layers” tab. Click on the tab to make the layer list visible. (See pic below)

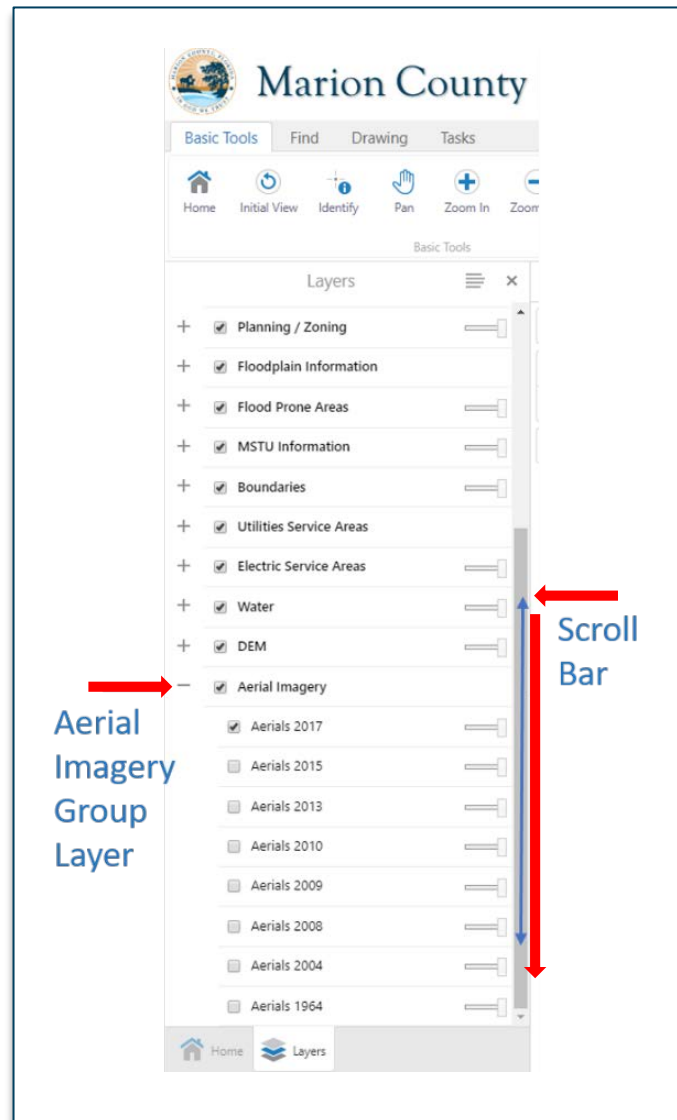

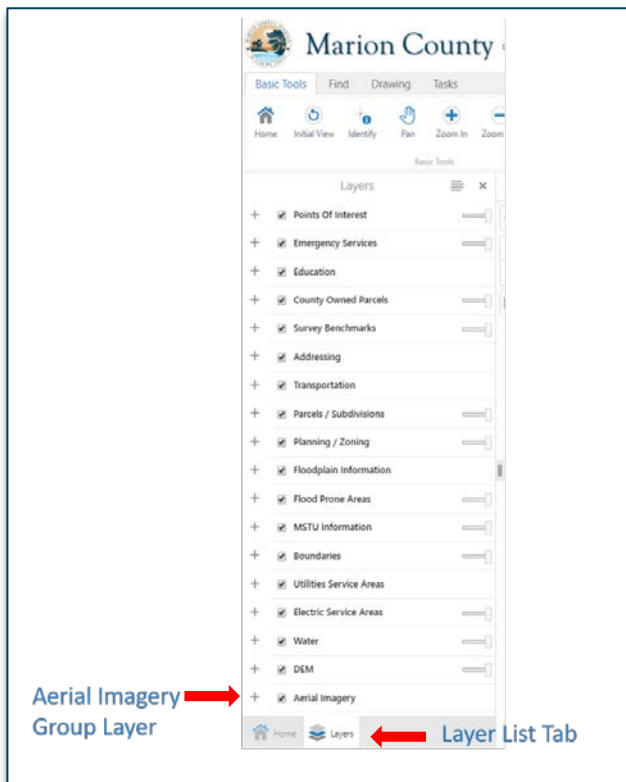

STEP #3

Open the Aerial Group Layer

In the layer's list, there is an "Aerial Imagery" group layer at the bottom of the list (you may have to scroll down to see it).

Once the aerial group layer is in view, click on the "plus" symbol next to the "Aerial Imagery" group layer title to expand the layer list. (See pics below)

STEP #4

Activating the Aerial Imagery Year Layer for Viewing

Once the aerial layer list expands, choose the year of the aerial imagery for viewing.

Click on the check box next to the aerial image year layer label (i.e. "Aerials 2017"), this will turn on the aerial image in the map viewer window to the right. (See pic below)

The screenshot displays the Marion County Interactive Map interface. The top navigation bar includes "Basic Tools", "Find", "Drawing", and "Tasks". Below this is a toolbar with icons for Home, Initial View, Identify, Pan, Zoom In, Zoom Out, Bookmarks, Print, Distance, Area, Clear, Address Search, and Parcel Search. The main content area is divided into a "Layers" panel on the left and a map viewer on the right. The "Layers" panel is expanded to show the "Aerial Imagery" layer, which is currently checked. Below it, a list of years is shown: Aerials 2017 (checked), Aerials 2015, Aerials 2013, Aerials 2010, Aerials 2009, Aerials 2008, Aerials 2004, and Aerials 1994. A red arrow points to the "Aerial Imagery Layer List" label, another red arrow points to the check box for "Aerials 2017", and a third red arrow points to the "Layer List Tab" at the bottom of the panel. A vertical red arrow labeled "Scroll Bar" indicates the scrollable area of the layer list. The map viewer on the right shows a satellite-style aerial image of a city area with a grid overlay. The bottom right corner of the map viewer contains a scale bar and the text "Florida Department of Transportation | Marion County Office c".

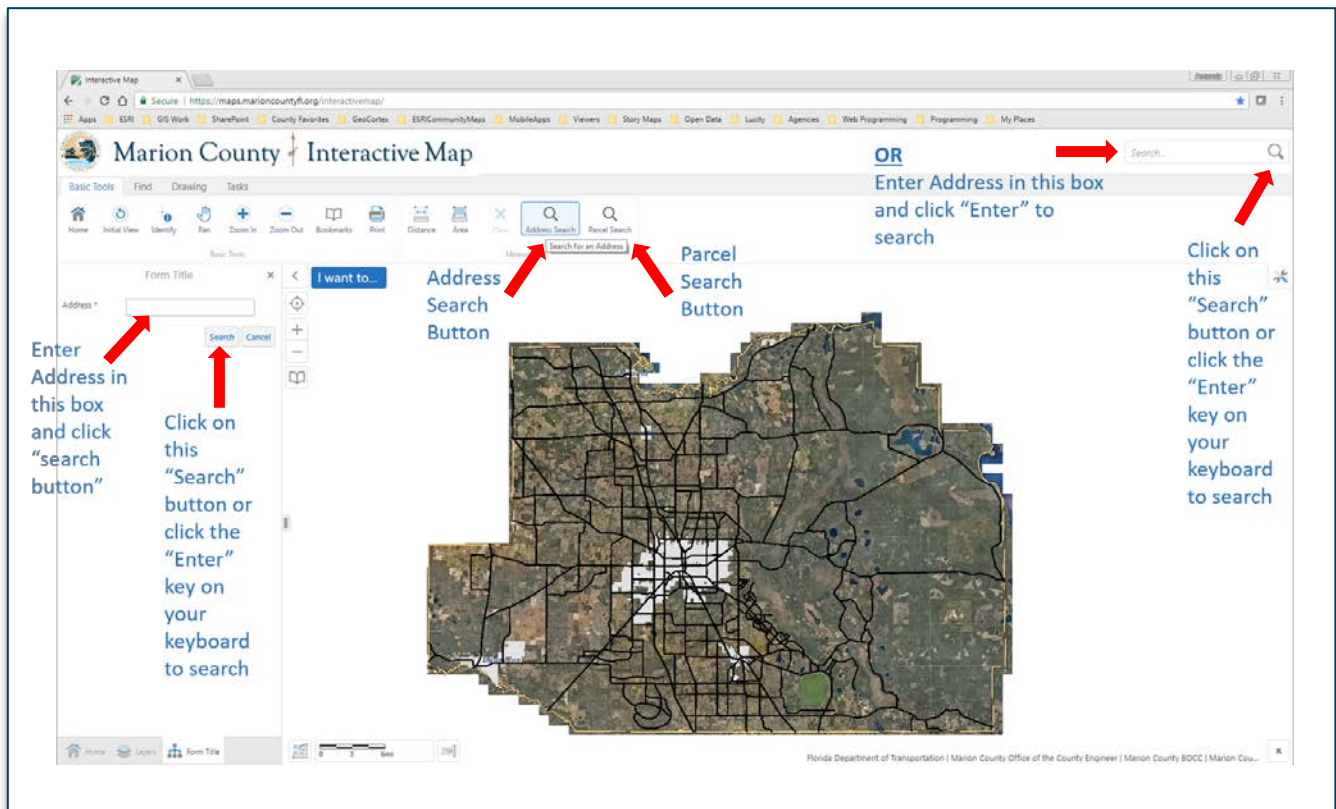

STEP #5

Address or Parcel Search Tools

After activating the layer for the chosen aerial year, there is an address or parcel search function available in the main toolbar at the top or upper right-hand corner of the website. (See pic below)

To use the address or parcel search tools, click on the address or parcel search magnifying glass icon button or use the address / parcel search bar in the upper right-hand corner of the website window. (See pic below)

(See pic below)

STEP #6

Address or Parcel Search Function

After clicking on the search button or search bar of choice, enter your parcel or address and click “Enter” on the keyboard or click on the magnifying glass icon button to execute the search.

The search results will appear in the window to the left and zoom to the property searched. If the search results do not automatically zoom to the property search, hover over the search results window until it turns a light blue color and click on the search results box to zoom to the location.

There are also two links in the search results window with the property card and parcel report on the Marion County Property Appraiser’s website. (See pic below)

Hover over and then click this search results box

Property Card or Report Links to the Marion County Property Appraiser’s Office Website
